

LEFIC Seminar with Sarkis Khoury

“Wealth Forever: The Analytics of Stock Markets”

Wednesday, May 19, 2004, 14:00-16:00

Copenhagen Business School, Solbjerg Plads 3, 2000 Frederiksberg, Nykredit Auditorium, SPs08, ground floor.

The seminar will include a discussion of traditional valuation models, showing how they are often weak and unreliable - especially when applied to the valuation of technology stocks - and new paradigms will be suggested. In addition, basic tools will be presented for understanding the stock market basics, the history of stock market performance in the US and overseas, the various ways to value stocks and to assess their risk, and the various methods that have been proposed to capitalize on the inefficiencies of the stock market.
