- Consultancy - Dissemination of knowledge
Advices and minor consultancy assignments for members
- Webpage etc. - Dissemination of knowledge
Virtual knowledge library, web sites, visits, etc.

Offshore numbers

10.600 people are employed in the Danish oil&gas offshore industry. 5.600 people are employed in Esbjerg.

The offshore industry generates a turnover of Dkk 70,8 billion, of which Dkk 34,5 billion are exported. In Esbjerg the direct turnover is Dkk 6,8 billion.

60 % of the employees in the offshore industry have a technical, bachelor or university degree. In comparison the figure for all of Denmark is 28 %.

25 % of the employees are craftsmen, whereas the figure for all of Denmark is 41%.

15 % of the employees have no education, where the figure for all of Denmark is 31%.

20.000 are employed within the wind industry, which is aligning itself more and more towards the offshore industry.

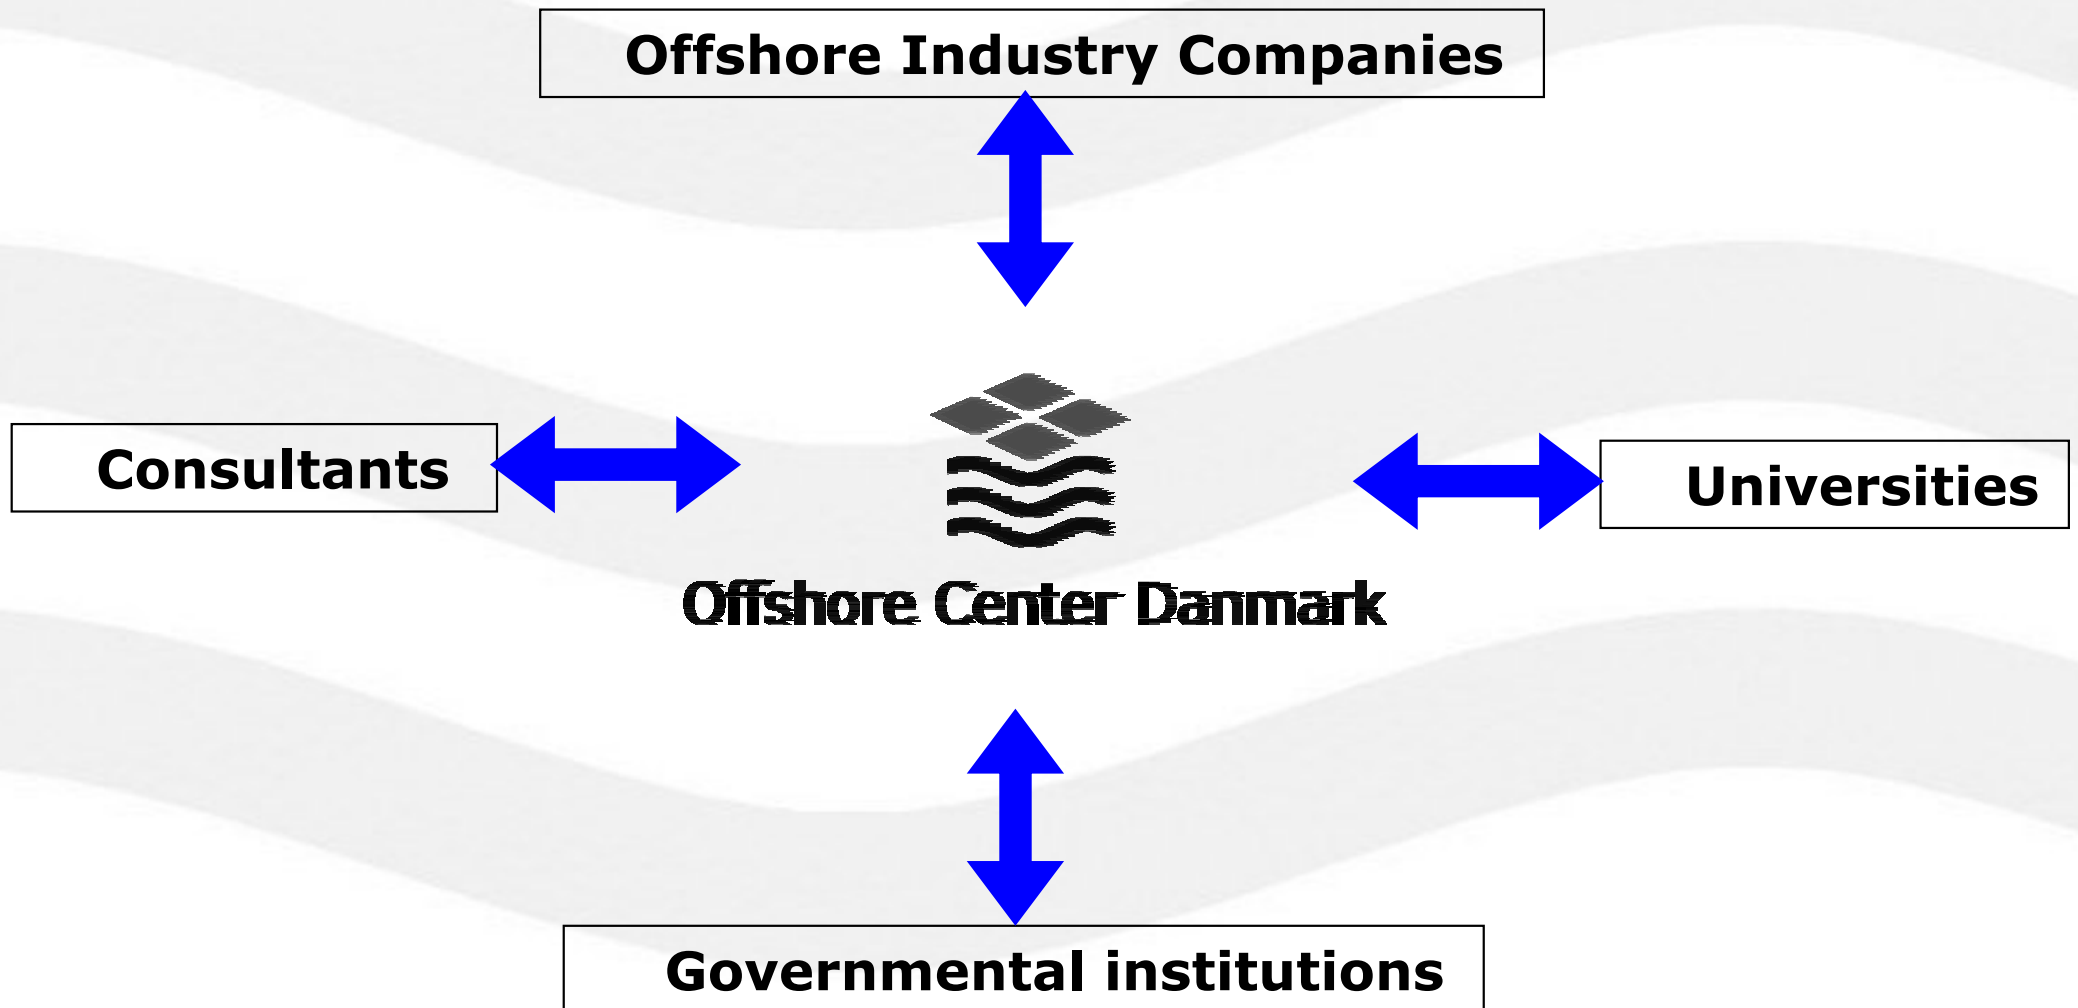

With 155 members OCD connects the companies & institutions.

Markets

- Oil & gas production
- Offshore windturbines
- Wave- and tidal energy
- Maritime "offshore" industry
