Master of Science in Organizational Innovation and Entrepreneurship at Copenhagen Business School

Maria, 25, Computer Science

“The entrepreneurial ecosystem in Scandinavia is second to none, and I love the startup scene...”

Programme Progression

OIE develops a skill set addressing each step in the life cycle of the entrepreneurial venture. Next to practical skills (market research, entrepreneurial finance and strategic communication), students reflect on entrepreneurial decisions and disruptive innovations on the individual, organizational and societal level.

Lifecycle of the firm

Ideation & Prototyping
Business Modeling
Organization Building
Exit Strategies

Language: English
Start: September
Application Deadline: 15th of January (non EU), 1st of March (EU)
