

# Application form for Administrative Enrolment to 2nd year of MSc in Business Administration and Bioentrepreneurship at CBS

## 1. Contact information

Name:	
CPR nummer:	
Address:	
Town:	
Postcode:	
Tel.:	
Email:	

## 2. Fulfilment of entry requirements

### A. I fulfil the specific entry requirements for the degree programme:

In the second column, you need to write the courses from your bachelor degree that you believe fulfil the entry requirements given in the first column. Please note that just because a course title is the same, it does not necessarily mean that the course content is the same. Several subjects can also be combined in place of one course.

You will need to attach your bachelor certificate together with your grade transcript. Remember to note all the different documents with a number and write that number in the third column.

Entry requirements for the degree programme	The following courses fulfil the entry requirements	Appendix no.
The specific entry requirements are min. 37.5 ECTS-points within the following areas:		
Min. 15 ECTS-points within a biological system (plants, animals or microbiology)		
Min. 15 ECTS-points within biochemistry/ organic chemistry		
Min. 7.5 ECTS-points within biotechnology methods (laboratory experience with molecular biology techniques)		

**B. I fulfil the language requirements for the degree programme:**

I have English level B:

I have requested my TOEFL test results be sent directly to CBS:

I fulfil the language requirements in another way (please include documentation):

**Only the exact qualifications listed on our [English level B](#) webpage fulfil the English B language requirement.**

### 3. Self-assessment

#### A. I have passed courses that are the equivalent of all those that comprise the 1st year of the degree programme at CBS:

In the second column, you should list the courses from your current degree programme that you believe fulfil the relative courses listed in the first column. Please note that just because a course title is the same, it does not necessarily mean that the course content is the same. Several subjects can also be combined in place of one course. You will need to attach your grade transcript for your bachelor courses plus course descriptions for each course. Remember to note all the course descriptions with a number and write that number in the third column.

<b>1st year courses of the CBS degree programme</b>	<b>The following course(s) can replace these courses</b>	<b>Appendix no.</b>
45 ECTS-points at graduate level within Biotechnology		
15 ECTS at graduate level within IPR (intellectual Property rights), biology, systems biology, sustainable biotechnology, molecular biology, molecular medicine, biochemistry, biomedicine, technical biomedicine, chemistry and technology, medicine and technology, human biology, nanotechnology, nanoscience, odontology, veterinary medicine, pharmacy, project management, data science or scientific writing.		

## 4. Signature

**I accept that should my application be approved and I am administratively enrolled to the programme, any applications I have made for graduate admission via the Application Portal will be annulled. I have attached a personal statement should selection be necessary.**
