

How to transfer alerts and searches from Business Source Complete to Business Source Ultimate

If you have alerts or saved searches in Business Source Complete that you want to transfer to Business Source Ultimate you can move them by using your EBSCO account.

1. Go into any EBSCO database and log in with your credentials (this is not your CBS login and password but something you have chosen when making the alerts)
2. Go to your Folder and pick the relevant element to edit

3. Pick Edit Alert and change the database for the alert to Business Source Ultimate

4. And click SAVE
