

Seminar Invitation - How to get Financial Regulation Back on Track?

Center for Corporate Governance, CBS & The Board Leadership Society in Denmark (Bestyrelsesforeningen) invite you to the seminar – How to get Financial Regulation Back on Track?

Time: 2. June, 2015 - 16.00-18.00
Place: Copenhagen Business School, Solbjerg Plads 3 (Frederiksberg)
SPs10 Deloitte Auditoriet

The financial industry was hit by a tsunami of regulation after the financial crisis. Most of the new regulation was drafted “in the dark” based on insufficient knowledge. Now overregulation is being criticized for increasing compliance costs and slower economic growth. What can be done? Should financial regulation have an expiry date? How can we use trial and error to do better? World-renowned expert **Professor Roberta Romano from Yale** will present her ideas for reform and lead a discussion with a panel of experienced financial executives. You can download Professor Romano’s paper “Regulating in the Dark”
