Research interests

Jan Mouritsen's research is oriented towards understanding the role of Management Technologies and Management Control in various organisational and social contexts. He focuses on empirical research and attempts to develop new ways of understanding the role and effects of controls and financial information in organisations and society. He is interested in translations and interpretations made of (numerical) representations (e.g. as in budgets, financial reports, non-financial indicators and profitability analysis) throughout the contexts they help to illuminate. His interests include Intellectual Capital and Knowledge Management, Technology Management, Operations Management, New Accounting and Management Control. Jan Mouritsen is currently editorial board member of a series of academic journals in the various areas of management and business research including accounting, operations management, IT and knowledge management.
