

**Lisbeth Funding la Cour**  
**(born 29 April 1962)**

Department of Economics, Copenhagen Business School

Porcelænshaven 16A, 1<sup>st</sup> floor, 2000 Frederiksberg, Denmark

Phone: +45 38 15 24 88, Fax: +45 38 15 25 75, mobile phone: +45 23 20 74 60

Email: [llc.eco@cbs.dk](mailto:llc.eco@cbs.dk), Web-page: [www.cbs.dk/staff/llceco](http://www.cbs.dk/staff/llceco)

Until my marriage my last name was: Andersen. My home address is: Vænget 6, 3050 Humlebæk, Denmark.

**Education:**

- University of Copenhagen, 1993, PhD Degree in Economics.
- University of Copenhagen, 1986, Cand.Polit. (Msc in Economics).
- Course in Project Management, DJØF, 2002/2003
- Course in Research Management, Copenhagen Business School, Handelshøjskolens Efteruddannelsescenter, 2009/2010
- Diploma as a Senior Fellow (SFHEA) in recognition of attainment against the UK Professional Standards Framework for teaching and learning support in higher education, 2021

**Positions:**

- ‘Associate Professor with special qualifications’ in Applied Econometrics, Department of Economics, Copenhagen Business School, February 2022 – present.
- Deputy Head of Department, Department of Economics CBS, 1 August 2016 to the present.
- Acting Head of Department, Department of Economics CBS, 1 January 2016 to 31 July 2016.
- Professor with special assignments within Time Series Econometrics, Department of Economics, Copenhagen Business School, February 2014 to January 2022.
- ‘Associate Professor with special qualifications’ in Applied Econometrics, Department of Economics, Copenhagen Business School, January 2009 to February 2014.
- Associate Professor in Applied Econometrics, Department of Economics, Copenhagen Business School, June 2000 to January 2009
- In a temporary Associate Professor position at Department of Economics, Copenhagen Business, June 1997 – May 2000.

- Post. Doc. financed by Carlsbergfondet. Research project: A Statistical Modelling of Intra-daily Exchange Rate series, July 1996 – May 1997.
- Post Doc at Institute of Statistics, University of Copenhagen. January 1993 – 23 July 1996 (Maternity Leave: 1/3 1993-21/9 1993).
- Research Assistant, Department of Economics, University of Copenhagen, September 1992 - December 1992.
- PhD student at Institute of Statistics, University of Copenhagen, February 1989 - August 1992 (Maternity Leave: 26/5 1989 - 4/1 1990).
- An employee at the Danish Central Bank, Danmarks Nationalbank, February 1986 - January 1989 (Maternity Leave: 28/6 1987 - 2/1 1988).
- Student employee at the Ministry of Finance, November 1982 – December 1985.

### **Fields of interest:**

Applied Econometrics. Originally I was a time series econometrician specializing in VAR- and cointegration models. But during the last 10 years I have broadened my interests so that now I also study panel data sets and measurement of treatment effects and selection.

Examples of economic fields of applications: exchange rates, productivity and spill-over effects, market domination, course evaluation, educational economics and public procurement. I also have an interest in ‘Big Data’.

### **Selected publications in books and refereed journals:**

- la Cour, L. and M. Feilberg (2000): ‘An Empirical Investigation of the Grain Trade from Poland to Amsterdam (1670-1795) - Is the Import Relation of the Amsterdam Market Stable even when the Turbulent period after 1760 is Included in the Sample?’. In Symposium i Anvendt Statistik , pp 177-201.
- la Cour, L. (1999) : ‘A Component-based Analysis of the Danish Long-run Money Demand Relation’, Working paper 6-99, Department of Economics, Copenhagen Business School.
- la Cour, L. and S. Schøtt Kristensen (1986): ‘Estimation af kvartalstal ud fra årsserier’, In Nordisk Symposium i Anvendt Statistik, Copenhagen, (In Danish).

**Research projects and plans right now (pipeline):**

- ‘Foreign Direct Investment and technological Spillover’ with professor Sara L. McGaughey, QUT, Brisbane, Australia and professor Pascalis Raimondos, QUT, Brisbane, Australia. Funded by FSE (funding ended in 2018). Work is still on-going. More planned papers.
- ‘Possibilities of the ‘Tender Electronic Daily’ EU-wide data base on public procurement contracts’. With Dolores Morales, ECON, CBS, Grith Ølykke, previously the Law Department, CBS, Marcela Restrepo, previously ECON, CBS.
- ‘Education. Studies based on Danish register data’ with Patrick Bennett, NHH Bergen, Norway and Birthe Larsen, Department of Economics, CBS.
- ‘Big Social Data Analytics’ with Ravi Vatraru and his research team. Funded by Industriens Fond (funding ended in 2017). Still on-going work.
- ‘Immigrants and mental health’ with Birthe Larsen, ECON, CBS and Sanne Kruse-Becher, Bochum University, Germany
- ‘Analyses of trade using historical data from the Sound Toll account’, with Battista Severgnini, ECON, CBS.
- Measuring of effects of blended learning, with Annemette Kjærgaard, MSC, CBS and Julie Buhl-Wiggers, ECON, CBS. Funded by a private foundation for the RiBL project at CBS.

#### **Other activities:**

I have during the years participated and presented papers in a large number of conferences and workshops - both nationally and internationally. Examples of conferences where I have presented papers are: The Econometric Society European Meeting (ESEM) in Maarstrict 1994, Berlin 1998, Lausanne 2001, Milan 2008 and EARIE, Istanbul 2010, EEA, Mannheim 2015. In addition I have presented annually at the ‘Symposium i Anvendt Statistik’ conferences in Denmark. Further information is available upon request.

Invited presentation of ‘The problem of Measuring Money: Results from an Analysis of Divisia Monetary Aggregates for Denmark’ at the conference: ‘Money, Measurement and Computation’ at University of Mississippi, USA, 1996

Invited presentation (seminar) of 'The Problem of Measuring Money: Results from an Analysis of Divisia Monetary Aggregates for Denmark', Washington University in St. Louis, USA, 1996

Invited presentation of 'The Problem of Measuring Money: Results from an Analysis of Divisia Monetary Aggregates for Denmark' at a conference on Divisia Monetary Aggregates, London 1996

### **Teaching:**

*CBS:*

Teaching coordinator, ECON, 2016 – present.

Financial Econometrics, Msc in Advanced Economics and Finance, 2018, 2019, 2020, 2021, 2022, 2023.

Line coordinator (program responsible) for the Msc. Program in Economics and Business Administration, Applied Economics and Finance 2008 – 31 December 2015. During this period I have had a continuous focus on program development. Also as part of this function I have been involved in creating a Double Degree Agreement with University of StGallen in Switzerland. From the summer 2011 onwards I have also been the head of the Economics, Finance and Accounting cluster at the Msc. Program in Economics and Business Administration (cand.merc.).

Basic Economics - with a preference for Macroeconomics. Both lectures (up to 400 students) and smaller classes. Almost all years 1997 – 2009. Course coordinator or shared course coordinator responsibility in most of these years. Bachelor level, various study programs. During these years I have worked hard on course developments with a special focus on making students realize how the models we teach them – even simple as they are - can be used to analyse real world problems.

Member of the study Board for the Diploma Program in Business Economics, 2003-2010, CBS.

Applied Econometrics - both a course based on lectures and exercises (Almost all years 1997 – 2009) and a progression elective course (2007). Master level. Also here I have worked hard during these years to improve the course and student motivation finding good and relevant data examples and to improve on the exam type so that it reflects the fact that the course is an applied one.

Supervision of a couple of bachelor theses and more than 80 master theses at CBS.

PhD supervision of Bo Danø, 2003

Co-supervisor of Patrick Bennett and Federico Clementi from our 2012-cohort of PhD-students at Department of Economics, CBS. Both have graduated by now.

Co-supervisor of Niels Buus Lassen. Niels belongs to a 2015 cohort of PhD students at ITM (now DIGI).

One of a set of teachers of the Applied Econometrics class of new PhD students at Department of Economics, CBS, Winter 2012/2013.

PhD supervisor of Mette Suder Franck, 2019 – 2023

Co-supervising Chenyan Lyu from CSEI, 2020 - 2022

APP (the pedagogical program of CBS for Assistant Professors) departmental supervisor for Kelly Foley, Natalia Khorunzhina, Lene Kromann, Moira Daly, Dario Pozzoli

From fall 2015 a member of the CBS ‘Ambassador group’ from which the CBS-wide APP supervisors are selected (with a break during the spring of 2016 while I was acting head of department). CBS-wide supervisor for Mathias Hein Jessen, Qiqi Jiang, Tom Grad, Fatima Adib and Mads Stehr, Catherine Batt, Tessa Kunkel and more.

*University of Copenhagen:*

Time Series Econometrics (seminar), 1991, master level

Parameter stability and non-linear modelling (seminar), 1995, master level

Basic Statistics course, exercise class teacher, 1992, bachelor level

**Further comments regarding my teaching:** during my affiliation with CBS I have for many years been teaching much more than what I had to having a position with 34% research time and 66% teaching and administration. Around 2012 I had actually created a teaching surplus of approximately 2 years of full teaching load which means that during this period I have in practice had less time for research. During the last couple of years I have been allowed to reduce this surplus. End 2022 I still have a teaching surplus of around 1 year of teaching load.

**Professional activities:**

- Appointed member of the FSE (the Independent Research Fund Denmark, section for Social Sciences) 2021 – 2024.
- Invited to assess one application for the Marianne and Marcus Wallenberg Foundation, Sweden, Summer 2021

- Head of the assessment committee of PhD student Shihan Du, Dep. of Economics, CBS, 2019
- Co-editor of the *Danish Journal of Economics*, 2018 – present.
- Invited to assess one application for the Marianne and Marcus Wallenberg Foundation, Sweden, Summer 2018.
- Invited to assess two applications for the Marianne and Marcus Wallenberg Foundation, Sweden, Summer 2017.
- Invited to assess one application for the Knut and Alice Wallenberg Foundation, Sweden, Summer 2017.
- Head of external assessment committee form Chandler Lutz to become an associate professor, fall 2016.
- Various task forces at CBS. E.g. the Graduate House group and the Contact Hour group.
- Docent assessment of Fredrik N.G. Andersson at Department of Economics, Lund University School of Economics and Management, December 2015/January 2016.
- Invited to assess two applications for the Marianne and Marcus Wallenberg Foundation, Sweden, summer 2015.
- Invited to assess three applications for the Marianne and Marcus Wallenberg Foundation, Sweden, Spring 2014.
- Invited as discussant at the PhD defense of PhD student Daniel Ekeblom, at Department of Economics, Lund University School of Economics and Management, September 2014.
- Invited to assess an application for the Marianne and Marcus Wallenberg Foundation, Sweden, May 2013.
- Head of the assessment committee of PhD student Haoyong Zhou, Dep. of Economics, CBS, 2012
- External reviewer for a position as ‘senior lecturer’ in economics, specialising in macroeconomics at Department of Economics, Lund University School of Economics and Management, September 2012.
- Invited to assess an application for the Marianne and Marcus Wallenberg Foundation, Sweden, July 2012.
- Invited to be the discussant at the “slutseminar” (pre-defense) of PhD student Emma Svensson, at Department of Economics, Lund University School of Economics and Management, May 2012.
- Invited to assess an application for the Marcus and Amalia Wallenberg Foundation, Sweden, March 2012.
- Invited to assess an application for Vetenskabsrådet (the Swedish Research Council), Spring 2012.

- Member of Department of Economics, CBS, hiring committee for the US job market, Chicago, January 2012
- Member of the pre-defense committee for PhD student Henrik Fosse, Dep. of Economics, CBS, November 2011
- Member of the assessment committee for a position as Assistant Professor in Health Economics, University of Southern Denmark, September 2011
- Invited to assess an application for the Marianne and Marcus Wallenberg Foundation, May 2011
- Member of the assessment committee for a position as Associate Professor in Statistics, Ålborg University, 2009
- Member of the Swedish Research Council', evaluation panel HS-B: Economic Research and Statistics, 2008, 2009, 2010.
- Member of the organizing committee of *Symposium i Anvendt Statistik* (Symposium in Applied Statistics) since the mid nineties.
- Member of the assessment committee for four PhD students (Thomas Elger, 2002, Åsa Ericsson, 2005, Fredrik Andersson, 2008, Emma Svensson 2013), Department of Economics, Lund University School of Economics and Management, Sweden.
- Member of the assessment committee for two positions as 'Første ammanuensis' at Norges Handelshøjskole, Bergen, Norway, 2003
- **Referee** for Macroeconomic Dynamics, Journal of Business and Economic Statistics, Finnish Economic Papers, Journal of Money, Credit and Banking, Nationaløkonomisk Tidsskrift (Danish Journal of Economics), International Journal of Economic Sciences and Applied Research, The Journal of International Trade & Economic Development, Empirical Economics.

### **Organizing Workshops and conferences:**

“Symposium i Anvendt Statistik” (Symposium in Applied Statistics), January 1997. Joint with Helle Holst, Angar Høskuldsson and Peter Linde

“Symposium i Anvendt Statistik” (Symposium in Applied Statistics), January 2008. Joint with Gorm Gabrielsen, CBS and Peter Linde, Statistics Denmark

“Symposium i Anvendt Statistik” (Symposium in Applied Statistics), January 2012. Joint with Gorm Gabrielsen, CBS and Peter Linde, Statistics Denmark

“Symposium i Anvendt Statistik” (Symposium in Applied Statistics), January 2016. Joint with Gorm Gabrielsen, CBS and Peter Linde, Statistics Denmark

“Copenhagen Education network (CEN)” workshop at CBS, December 2020. Joint with Birthe Larsen and Fane Groes, both ECON, CBS.

“Copenhagen Education network (CEN)” workshop at CBS, Fall 2022. Joint with Birthe Larsen and Fane Groes, both ECON, CBS.

“Symposium i Anvendt Statistik” (Symposium in Applied Statistics), January 2023. Joint with Peter Linde.

### **International research cooperation:**

Research projects with Delia Baghdasaryan, INRA-GAEL, Grenoble, France, 2008-2010.

Research projects with professor Sara L. McGaughey, QUT, Brisbane, Australia and professor Pascal Raimondos-Møller, Department of Economics, CBS (at Queensland University of Technology, Brisbane, Australia 2016-now).

Research project with Sanne Kruse-Becher, Bochum University, Germany and Birthe Larsen, ECON, CBS.

Research project with Jenny Müller, Germany, graduated from the Msc. Program in Economics and Business Administration, Applied Economics and Finance concentration (cand.merc. AEF), paper finished in 2014.

### **External grants:**

A 2-year Post Doc grant from Carlsbergfondet. Stopped after approximately 1 year due to my moving to Copenhagen Business School. Project title: ‘Statistical Modelling of Intra-daily Exchange Rate series’, Jul 1996 – May 1997.

A grant from the Danish Social Science Research Council together with Delia Ionascu, Department of Economics, Copenhagen Business School, for the project: ‘The Impact of Ownership and Structural Reforms on Productivity’, Jan 2007 – Jun 2008.

A grant from the Danish Social Science Research Council together with professor Pascal Raimondos-Møller (the main applicant), Department of Economics, Copenhagen Business School, for the project: ‘FDI productivity spillovers and profit shifting’, Summer 2014 – summer 2017.

A grant from Industriens Fond together with Ravi Vatraru (the main applicant) and his research group, ITM Department, CBS for the project ‘Big Social Data Analytics’, Autumn 2015 – autumn 2018.

### **Activities regarding interaction with industry and society:**

- My participation during more than two decades in ‘Symposium i Anvendt Statistik’ (Symposium in Applied Statistics). The focus of this symposium is to gather people with different backgrounds but with a common interest in Applied Statistics. Participants come from academia, the public sector and the business world in Denmark.
- A presentation for business high school students, 2008.
- Invitation of guest lecturers from industry – e.g. Analyst Arvid Jakobsen (A.P. Møller-Maersk, Finance Department), Senior Vice President Henrik Meyer (Novozymes)
- Invitation of CEO Niels Bjørn Christiansen, Danfoss, as guest speaker for a cand.merc. event.
- Company visit with Applied Economics and Finance students to Origio, a company within the field of in vitro fertilisation with a very global focus and which is also interesting from an M&A point of view, August 2012.
- A practical implication (impact) of my research: the research in my publication number 33 has had the practical consequence that the admission percentage of quota 2 students was for some years reduced from 40% to 20% by the HA-IB study board at CBS.
- A second practical implication (impact) of my research: the research in my R&R paper on effects of a RCT on FC in macroeconomics has resulted in a change such that our treatment (a flipped classroom blended learning pedagogy for exercise classes) has now been adopted for all students in the large macroeconomics course at HA-Almen, CBS.
- Facilitating the connection between students of my classes and selected companies (NovoZymes, Sonion) for project work (2019, 2020).

**Languages:** Danish (native), English (fluently), Swedish (good understanding in hearing and reading), Norwegian (good understanding in hearing and reading), German (very basic), French (very basic)
