

# CBS LIBRARY

## **LIBSEARCH - BOOKS AND ARTICLES**

Libsearch contains all print books available from CBS Library as well as electronic books, journals, and a wide range of articles.

This is a good place to start your searches for literature.

Log in using your CBS username and password to get access to the full content, save searches, and request books.

Create a PIN once you have logged in and you are ready to borrow books on the self-service machines.

*Visit: [libsearch.cbs.dk](http://libsearch.cbs.dk)*

## **COURSE LITERATURE**

Books needed for class are available in the library's Course Collection. These books are for library use only.

## **DATABASES**

As a CBS student you have access to a huge variety of databases covering CBS related subjects.

- Academic journals
- Newspapers
- Company and market reports
- Financial data
- Statistics
- Dictionaries
- Law and much more

## OFF-CAMPUS ACCESS

Most CBS Library databases, e-books, and articles are available on- and off-campus. Log in with your CBS credentials.

## 24/7 ACCESS TO THE LIBRARY

Update your student ID card at the Campus Desk at Solbjerg Plads. It will give you access at night through the night entrance.

## BOOK STUDY SEATS AND GROUP ROOMS

Across campus you'll find reading rooms and group rooms. Some are first-come-first-serve but most can be booked. Find the booking links in the library menu at [my.cbs.dk](http://my.cbs.dk)

## ORDER FROM OTHER LIBRARIES

If a book or an article is not available from CBS Library, we are happy to order them for you. Place your request via *library.dk*, the national cross-library catalogue, or use the form available from the top menu in *Libsearch*.

## ASK A LIBRARIAN

We love to help! Talk to your librarians in the library, by phone, or e-mail. Ask about specific books or articles, get guidance on which databases to use for a specific topic, or on how to cite your sources.

## CITING AND REFERENCING - USE A REFERENCE MANAGEMENT TOOL

A reference management tool is used to collect and save references to articles, books, websites, and other sources.

It allows you to find references and push them to your personal database while doing your research. In turn, you can create correct in-text citations and perfect bibliographies based on the sources in your database in styles like APA.

## CBS LIBRARY DATA LAB

Financial database such as Bloomberg, Eikon, and Datastream are available in the Data Lab.

*Visit [my.cbs.dk](http://my.cbs.dk) - library section*

*“Get to know all the library resources from the beginning of your studies. This will avoid some headaches at the last minute”.*
