Title: On the Road Again

Abstract:

Danske Bank recently announced that it plans to issue AT1 capital in the DKK market. What does a roadshow presentation for potential investors look like in connection with such an issue? And what are the questions a potential investor might ask? At this FRIC practitioner seminar, Claus Ingar Jensen and Christoffer Møllenbach from Danske Bank will give a roadshow presentation of the new bond issue, and Rene Kallestrup of Capital Four Management will provide the perspective of a potential investor.
