

Graduate courses available to exchange students – fall 2019

MINORS AVAILABLE TO EXCHANGE STUDENTS-- FALL 2019

Minors are open to a limited number of graduate exchange students. When registering online, register for the minor course code only, not for the individual courses in the minor. Many of the courses that make up a minor are also available as individual elective courses. For those with limited seats, priority will be given to students applying for the minor over students applying for the elective courses individually. Other courses are offered exclusively as part of a minor, and they will not be offered as individual courses outside the minor. Minors are not open to undergraduate exchange students as a bachelor's degree is required for taking these courses.

CBS CORE PROGRAM COURSES -- FALL 2019

Graduate exchange students have the great opportunity of enrolling in these CBS core program courses. Note that the number of seats in these courses are limited. Furthermore, there might be a risk of schedule overlap if mixing because scheduling for core courses and electives are administered by different secretariats with no need for coordination since CBS program students are not doing electives when they are in their core courses.

Core program courses are not open to undergraduate exchange students as a bachelor's degree is required for taking these courses.
