Registration between 13.30 and 14:00 – be early and grow your network!

14:00 Welcome and introduction to the event

by Professor Britta Gammelgaard, CBS

14:15 Supply Chain Megatrends

By Jacob Bønnelycke Hartzberg, partner, Implement Consulting Group

Viewpoint on global megatrends that are influencing the 2-t-2 supply chain and leave companies with a window of opportunities and/or challenges if they make the right choice.

14:45 The Rise and Fall of the Electric Vehicle: a Study of Domination

By Claus Juul Varnes, Associate Professor, Department of Operations Management

Get insight into the struggle between gasoline and electrically driven engines and why it is (has been?) so difficult to change energy form.

15:15 Break

15:30 City Distribution anno 2017 is more than parcels to consumers

By René Sidor, General Manager, European Logistics, DACHSER, Denmark A/S

More and more restrictions are being placed on the access to inner cities. The urban access regulations in cities in Europe have increased by 87% to 500 restrictions in the period from 2008 to 2016. The solution is to be found in more efficient and sustainable delivery methods. DACHSER is creating a toolbox which will be a practical method for providing a variety of solutions.

16:10 Value creation in a global supply chain in the energy industry

By Niels Petter Hansen, Siemens AS, Oslo

How to secure value, not only price reduction? Key content Global Value Sourcing, Design to Cost, Cost Value Engineering + early engagement for Contribution to Growth. Why and how to report within Supply Chain? Key content will be to show how we report PVO and deep dive into our CNI and CNI+ (saving and value add) concept and reporting.

17:00 Break
