

Searching for your own housing in Copenhagen- Exchange students

Own network:

Ask your family or friends if they know people that live in Copenhagen; it is easier to find a room when you are part of a Danish network.

You can also try to get in contact with Danes through scout groups, sports associations, clubs (ex: Rotary or Lions) and expats associations.

Rent an apartment/room:

Please remember that finding a room in Copenhagen for the fall semester is difficult and it requires a tremendous amount of time to search and find something suitable, so remember to be very proactive. You can make it happen! I quote one of our exchange students:

"Finding accommodations in Copenhagen is incredibly difficult. My one piece of advice would be to start early. Start looking for an apartment before the dorms are available. In that case, if you do not get in to

Tip: It might be a good idea to post regularly to stay visible.

Get in contact with students from your own university or country who are studying full time at CBS; they might give good advice and maybe help you to find housing. They may even have a room to sublet.

Here are some words that you may find useful when looking for rooms in Copenhagen:

- Leje: rent
- Bolig: apartment
- Værelse: room
- Fremleje: sublet

Living outside central Copenhagen:

Living in the outskirts of Copenhagen can be an opportunity to have a Danish day to day life experience and it can be cheaper than living in central Copenhagen. Please note that the Danish public transport system is excellent, so you should not have any problems. See map below:

Students usually choose zones 1, 2 and 3 to live in.

However, getting to zones 30, 31, 32 and 33 it does not take longer than 20 minutes.

You are welcome to use Denmark's transport planner journeyplanner.dk for more information.
