## FORMER EMPLOYMENT

---

### Department of Political Science, University of Copenhagen

Feb. 2020 - Jan. 2022

- Research Assistant on the project *Unequal, alienated and unwell? The consequences of local economic inequality for individual and societal well-being*
- Managing and analysing data from Danish registries and social surveys; reviewing literature; writing up and communicating research results.

### Danish Centre for Social Science Research (VIVE) and Danish National Centre for Social Research (SFI)

Jan. 2017 - Feb. 2020

- Student Assistant doing quantitative analysis of social and welfare policies, especially related to the Danish Longitudinal Study of Ageing (DLSA). This included preparing survey questionnaires, analysing data, communicating research results, and doing literature reviews

## TEACHING

---

### Boomers and babies: The role of family ties and generational divides in political behaviour, Department of Political Science, University of Copenhagen

Spring 2023

- I was the course coordinator, set up the curriculum, taught weekly seminars for 40 students, and graded exams
- The course was an elective for master students at Department of Political Science
- Themes included generational divides in opinion formation, the role of family ties in political behaviour, inter-generational solidarity, and inter-generational mobility
- Capabilities and communicative skills evaluated to 4,6 by the students (5 = highest)

### Methods 2, Department of Political Science, University of Copenhagen

Fall 2022

- I taught classes of approximately 40 undergraduate students each and graded exams. The course is a mandatory part of the bachelor programme
- The course centered around quantitative methods and topics included OLS regression, logistic regression, interaction models, multi-level modelling, experimental research design, and panel data estimation

### Methods 3, Department of Political Science, University of Copenhagen

Spring 2022

- I taught classes of approximately 40 undergraduate students each and graded exams. The course is mandatory and the last methods course on the the bachelor programme
- The course consisted of both advanced quantitative and qualitative methods including causal inference, panel data estimation, regression discontinuity designs, and discourse analysis

- I taught weekly classes of 40 undergraduate students each, carried out workshops in applied methods and statistics, and graded three rounds of assignments
- The course is a introduction course to both quantitative and qualitative methods and a mandatory part of the bachelor programme

## SOFTWARE SKILLS

---

<b>Quantitative analysis:</b>	R (advanced), Stata (advanced), Danish Registry Data (advanced)
<b>Text editing and presentations:</b>	L <sup>A</sup> T <sub>E</sub> X(advanced), MS Word (advanced)

## LANGUAGE

---

<b>Danish:</b>	Mothertongue
<b>English:</b>	Fluently written and spoken
