## WORK EXPERIENCE

### Visiting ESG Researcher - Copenhagen Business School

*August 2025 - Present | Copenhagen, Denmark*

- Writing a report assessing physical climate risks on offshore wind assets and the impacts on their valuation
- Developing a white paper on ESG data methodologies to improve ocean-related investment analytics
- Leading multi-stakeholder workshops to design financially material "blue metrics" for investors
- Developing a global database mapping marine ecosystems, blue corridors, and sensitive biodiversity areas using offshore wind and shipping companies' data points

### Strategy and sustainability consultant - INDEFI Group

*June 2023 - June 2025 | Paris, France*

- Participated in the Project Management and Production Team, ensuring the smooth organisation and performance of our quarterly asset-level financial analysis and market research for unit-linked and euro funds, and respect of budget
- Completed strategic due diligence and vendor due diligence assessments for Private Equity and Infrastructure funds
- Supported Private Equity clients for their annual reporting, ensuring alignment with the GRI while also calculating PAIs
- Built Impact and Climate investment strategies for Private Equity and Mutual fund clients
- Headed the Partnerships team to collaborate with service and data platforms both for internal and client needs

### Financial analyst for Climate and Biodiversity - Société Générale

*January 2022 - July 2022 | Paris, France*

- Handled partnerships and contracts with external data providers and credit vehicle originators for the oil&gas sector
- Calculated the financed and GHG emissions of the credit portfolio to build the decarbonization trajectories of the bank
- Participated actively in the Net Zero Banking Alliance (NZBA) for the development of methodological guidelines to optimize the modelization of financed emissions in the power generation, oil&gas, shipping sectors, and real estate

## ACADEMIC EDUCATION
