Profile

Ambitious and analytically minded Data Consultant with a background in Economics and practical experience in financial operations, reporting, and process optimisation. I specialise in applying quantitative methods and data analytics to drive insights and support decision-making.

Employment History

Consultant, Copenhagen Data

Aug 2025 – Present

I work as a Data Consultant on complex data projects that transform business insights into long-term value and strengthen client competitiveness.

Finance Assistant, Fritz Schur & Co.

Nov 2024 – Aug 2025

After three years at Fritz Schur & Co., I was promoted in recognition of the responsibilities I had taken on. In my final role there, I led a major financial project focused on ERP integration, with primary responsibility for data migration, data structuring, and designing management reporting.

Student Assistant, Fritz Schur & Co.

Nov 2021 – Oct 2024

As a student assistant at Fritz Schur & Co., I supported financial and property administration, contributed to subsidiary accounting, and managed the financial operations of one subsidiary, including daily routines, monthly reporting, and year-end closing with auditors.

Student Guide, Copenhagen Business School

Mar 2021 – Sep 2023

For three consecutive years, I volunteered as a student guide at Copenhagen Business School. In this role, I supported new Bachelor students studying Business Administration in navigating both academic and social aspects of university life, offering advice and insights based on my own experiences.

Sales Advisor, Magasin Du Nord

Oct 2019 – Dec 2021

I held both full-time and part-time roles, starting as seasonal staff in the kitchen department, later working full-time in the children's department, and shifting to part-time when I began university.

Education

MSc in General Management and Analytics, Copenhagen Business School

Sep 2023 – Jun 2025

I hold a Master's degree with a focus on business decision analysis, problem-solving, and strategic action. My master thesis focused on the experience economy with Tivoli as a case study, combining data analysis and business insights into concrete proposals to strengthen business performance.

Minor in Risk Management, Copenhagen Business School

Sep 2024 – Jan 2025

During the third semester of my Master's programme, I completed a minor in Risk Management. I studied current and complex global risks affecting businesses in an international context.

BSc in Business Administration (HA-Almen), Copenhagen Business School

Sep 2020 – Jun 2023

I completed my Bachelor's degree in Business Administration in the summer of 2023. The programme provided me with knowledge in business analysis, including accounting, finance, marketing, and organisational theory.

STX (Upper Secondary School Diploma), Rungsted Gymnasium

Sep 2016 – Jun 2019

Majors: English A and Social Science A
